Flavor/Odor	Typical tart characteristics of cranberry from mature fruit	Visual & Smell
Standard Plate Count	<1000cfu/g	AOAC Official Method 966.23
Yeast & Mold	<100cfu/g	Compendium of Methods for the Microbiological Examination of foods
No Foreign material	0	Visual

Packaging:

All containers must be free from dirt, debris and/or offensive odors. Fifty-five gallon food grade metal drums are double lined with .004 mil FDA approved poly liners, filled to forty-two gallons and sealed with nylon zip ties. A metal lid is placed on top of the drum and secured with a 5/16" bolt ring. Then, a recorded tamper proof metal seal is placed on the drum lid ring. The top of the drums are labeled with supplier's name and place of manufacture, product description, date, lot number, Brix, acid, drum number, net weight and kosher symbol. A duplicate label is also applied to one side of the drum. Tanker abides by JPA standard guidelines.

Shipping and Storage Recommendations:

Drums - Store and ship product at 0°F. Shelf life of product is two years.
 Tankers – Ship at 36°F or below, store at 0°F. Shelf life of product is two years.
